

Providing recycled...

- ☐ Reams of paper
- ☐ Envelopes
- ☐ Paper cups
- ☐ Notebooks
- ☐ And More!

**By saving one
happy tree at a
time.**

Recycled is the new standard.

Happy Trees Paper Company is a sustainable paper company located in Salem, Oregon. We provide paper and paper products made up of 100% recycled paper made with ingredients that are sourced using sustainable practices. Our newly developed paper-making process is water-conscious and aims to reduce the amount of water that is originally used in traditional paper mills. We sell reams of office/school paper, as well as other products like envelopes, napkins, paper cups, notebooks, and other school and work necessities. Happy Trees hopes to portray an image of a sustainable and eco-friendly company that is dedicated to providing high quality products to their consumers while also maintaining a low carbon footprint with our sustainable practices and resources.

We strive to maintain product excellence while keeping our surrounding environment healthy and thriving.

Remember, we only have one world, and we want to do our part to save it!
